Lost Items Problem Statement

Author: Tyler Day

Problem Statement:

- People need a better way to post lost items on campus and locate the owner with ease.

Who is experiencing this problem?

- The people experiencing this are the ones that either lose items or found lost items throughout campus.

What is the problem?

- The problem is that people do not have a reliable way to ask if people have seen lost items in different locations, post pictures of the lost items, and connect with the owner reliably.

Where does the problem present itself?

- The problem presents itself everywhere on campus. Some examples include, dinning halls, classes, dorms etc.

Why does it matter?

- It matters because their should be a safe and reliable "lost and found" on such a huge campus.
